

## Donation Box Template:

1. Print out template, selecting landscape orientation. Use a thick paper/card which will give the box a sturdier structure.
2. Cut out the template shape and then make other scissor cuts as indicated by an unbroken line. Don't forget to cut out the slit for the donations to go in at this stage, as it is more difficult when the box is made.
3. Make initial folds along all the dotted lines.
4. Apply adhesive to section marked GLUE 1 and stick the blue section with the ME Trust logo onto this section.
5. Apply adhesive to sections marked GLUE 2 and stick to the end sections on each side (with the small Strawberry Tea logos on).
